JAVIER PUGLIESE

FRONTEND DEVELOPER

+54 9 351 347-2757 | JAVIPUGLIESE1@GMAIL.COM | WWW.LINKEDIN.COM/IN/JAVIER-PUGLIESE

EXPERIENCE

INTEGRATION ENGINEER & SHOPIFY FRONTEND DEVELOPER | EUREKA LABS

Cordoba, Argentina. Sep 2021 – June 2025 (3 yrs 10 mos)

- Built and maintained Shopify themes using Liquid, JavaScript, SCSS, and Vue 2 (Options API, Vuex) and React.
- Developed responsive, accessible UI components for e-commerce storefronts.
- Created the company's institutional blog using Next.js and Strapi, deployed with Vercel.
- Worked on SuiteCommerce frontend customization integrated with Oracle NetSuite ERP.
- Used GitHub for version control, and collaborated in Scrum workflows via Jira and ActiveCollab.

FULL-STACK DEVELOPER | AUTOMATIZA

Full Time in Cordoba, Argentina. Dec 2019 – May 2021 (1 yr 6 mos)

- Helped build a web-based system for managing a multimedia gallery linked to digital ads and planograms, primarily for pharmacies and drugstores.
- Developed frontend components using JavaScript, jQuery and Vue 2.
- Initially used a backend in Django and MySQL, later migrated to Node.js, Vue.js, and SQL Server.
- Improved performance and maintainability of the platform.
- Basic usage of Azure DevOps for CI/CD and version control.

WEB APPLICATIONS DEVELOPER | DIPROACH

Full Time in Cordoba, Argentina. Feb 2020 – May 2020 (4 mos)

- Participated in project architecture refactoring using MEAN stack (MongoDB, Express, Angular, Node.js).
- Contributed to admin interfaces and REST API integration.

FULL-STACK DEVELOPER | SANTEX

Internship in Cordoba, Argentina. June 2018 (1 mo)

- Collaborated on a school project to manage student permissions and exits using token-based validation and custom forms.
- Supported full-stack development using Python, Django, and Bootstrap 4.
